Khao Lak Land Discovery

has been renowned for years to provide only the best quality and service for all our excursions and tours. All our prices include everything we need during the day. That means National Park Fees (400-600 Baht per person per day), Meals, Refreshments, Insurance, English speaking Guide (other languages on request), Aircon Transfers and all described activities for the specific tour -including accommodation for the multiple day tours. Please keep in mind that due to different weather circumstances we might have to modify some of the itinerary or postpone a tour. But we will always communicate with you in detail if there are any changes. All our tours have a minimum of 4 people, if there are less than 4 we will have to charge a bit more as we need to cover the cost - though than you will have a private tour for yourself. During the high season we have specific tour days, please inquire at our office or with one of our Representatives to find out when your desired tour is starting.
