

Phuket Sightseeing and Shopping

Of course sometimes it's nice to get out of the Nature and into the City again for some sightseeing, (window) shopping and cultural Life. Based on our experience from the last couple of years we have put together an itinerary for one day that will get you a nice mix of sights and shops, views and scenes, city and beaches.

■ Departing from your Hotel around 9.00 we will head straight for the biggest shopping center on Phuket: Central Festival. In the centers Food court they offer a huge range of dishes, maybe you also want to have lunch here?

■ After some intense shopping it's time to relax and just watch -and maybe do some shopping afterwards: We will bring you for a brief stop to Wang Talang, a Thai handicraft center where you can observe how Jewellery, Silk, ancient wood carvings, etc. is made

■ We will dive even deeper into the cultural life when we visit Chalong Temple and have some nice views on the southern most point of Phuket afterwards: Promthep Cave

■ From the most southern point we will drive along the west coast to the highest point: Phuket Viewpoint, where you can get an overview of the beaches and landscape before we descend onto Patong beach for more shopping, sightseeing and maybe a dinner in one of the many Seafood Restaurants

■ Around 18.30 we depart Phuket again
